

# **CASTLE OF THE WIZARDS**

## **Verse 1:**

**In a land so far away – To where no one knows the way  
Sun is rising, night has gone – You're waking up one by one  
Heavy fog is all around – And you still haven't found  
The place you are looking for – And you wanna search no more**

## **Interlude**

## **Verse 2:**

**Step by step you're moving on – Guided by a white lion  
Air is clear, the path is small – the mountain is so tall  
Now you're at a higher glade – where fairies come and fade  
You know your goal is near – Inside you feel the fear**

## **Interlude**

## **Refrain:**

**You've heard there is a place where all your wishes can 'come true  
It's hidden in a mystic land where heaven has all shades of blue  
You've been fighting dragons and you solved so many mystic riddles  
But it seems you'll never find your way - to the castle of the wizards**

## **Verse 3:**

**There's a gate not far away – a bright light showing you the way  
The white castle you can see – built up high in a tree  
Your heart is beating faster now – finally the way you found  
Now you open up your eyes – a dream it was you realize**

## **Interlude**

## **Refrain:**

**You've heard there is a place where all your wishes can 'come true  
It's hidden in a mystic land where heaven has all shades of blue  
You've been fighting dragons and you solved so many mystic riddles  
But it seems you'll never find your way - to the castle of the wizards**
