

DON'T GIVE UP

Verse 1:

**Living on the edge, working day and night
Whenever you go out, it ends up in a fight
Your wife has left today, the kids by her side
You know, this is the end, your last hope dies**

Refrain:

**Don't give up, if you are down
Recall the pain, when you hit ground
Don't give up, for one more day
Move your feet, and go your way**

Interlude

Verse 2:

**No money in your pocket, no cigarettes to smoke
No food in the fridge, and you're totally broke
Your tank's almost empty, you're stuck at home
Your friends are all gone, and you're all alone**

Refrain:

**Don't give up, if you are down
Recall the pain, when you hit ground
Don't give up, for one more day
Move your feet, and go your way**
