

FIGHTING MACHINE

Bridge:

**... get out!
... we strike!
... get out!
... right now!**

Verse 1:

**With the order to attack, we are marching into war
Protecting our masters like a three-footed car
We are striking with a lightning from another star
And man kind can be sure the end is not far!**

Bridge

Verse 2:

**We do not care about what's right or wrong
We are working on remote and we are strong
We know how to fight and we are mean
That's why they call us Fighting Machine**

Refrain 1:

**From far away we came down to earth
Hoping to find a new home
But now we can't stay 'cause it is even worse
This planet will burn to the bone**

Solo

Refrain 2:

**Fighting machine – go back to where you came
On your shining wings of light
Fighting machine – go back to where you came
We want no war, we want freedom**
